

## Capstone Project Final Report,

CSc 59866/7 Capstone I/II: BEAT: Branding and Entrepreneurship of Assistive Technologies for Social Good, The City College of New York. Spring 2020 Monday 11:00AM - 01:30PM Room NAC 6/214

Each student team will be responsible for completing and uploading in your wiki page the outcomes listed below at the end of the spring semester

*(For the three CREATE teams, you will need to submit your materials to NYSID at [create@nysid.org](mailto:create@nysid.org); details will be provided as soon as available. All final videos, presentations and reports will be published and streamed on the CREATE website).*

While the final report will be in more intricate, scientific terms, presentations and demonstrations should be in layperson's terms for greater audience understanding.

### Final Report

- This will be a discussion of the work completed on the assistive technology aid, device or rehabilitation technology service that the student teams produced.
- Formatting Guidelines-
  - Suggested order of headings: Background, Statement of the Problem, Rationale of Your Solutions, Design and Development of Your Systems, Evaluation with Users and Partners, Discussion of Potential Markets and Future Work, **Branding (the evolution of the names, logos and topics of your project)**, References Cited, and Acknowledgements (to Instructors, Partners, NYSID, Zahn and Others).
  - **File format: Word and PDF document. Please upload your report in your wiki page.**
  - Overall length: NYSID requires maximum five pages, but for the past, something between 5-10 pages would be okay.
  - Graphics: Should be compressed and embedded in their proper locations within the paper.

### Video

- Videos should be 3-6 minutes in length and include a demonstration of the device. Consider your **branding and entrepreneurship** aspects as much as possible, including logos, names, user studies, and potential markets etc.
- Videos must be uploaded to YouTube as private, and the link provided in your wiki page. The link to the video should also be referenced in the report in a separate document.
- *CREATE Teams: Please send the link to [create@nysid.org](mailto:create@nysid.org). Video links must be delivered to NYSID before the symposium (again details follow whenever I hear from NYSID).*

### Prototype

- Must be a working prototype.
- Must exemplify high quality, accuracy, functionality and safety.
- Must be tested and evaluated on productivity.
- Must be delivered to the NYSID member agency at the end of the school year.
